ULTERRA

NEVER TOUCH YOUR TROLLING MOTOR AGAIN.

With Auto Stow/Deploy and Power Trim, we won't blame you for getting excited about the all-new Ulterra™. Especially once you realize it comes with your choice of i-Pilot or i-Pilot Link, an all-new foot pedal and Universal Sonar 2. Now we're just showing off.

AUTO STOW/DEPLOY AND POWER TRIM

Zero to Fishing in No Time.

AUTO STOW/DEPLOY

Ulterra is the easiest motor you've ever fished with. Period. Exclamation point. End of story. Auto Stow/Deploy lets you get your motor in and out of the water using the included i-Pilot or i-Pilot Link remote, or the redesigned foot pedal.

POWER TRIM

Once your motor's in the water, Power Trim lets you easily adjust its height for changing conditions, using the included i-Pilot or i-Pilot Link remote, or the redesigned foot pedal. It's one more way Ulterra handles the busy work, so you can focus on more important things.

NEW FOOT PEDAL AND REMOTE BUTTONS

Ulterra comes standard with a new foot pedal and your choice of i-Pilot or i-Pilot Link – all redesigned to enable Auto Stow/Deploy and Power Trim. Control those features with the new "mode" button on the Ulterra foot pedal, or with i-Pilot and i-Pilot Link remotes. We've also added Spot-Lock to the pedal, making it even easier to stand your ground.
